MEMORANDUM FOR: Chief, Planning Division, PRS/DDS&T

FROM:

[Redacted]

25X1

Chief, Executive and Planning Staff, FBIS

SUBJECT:

FY 1985 R&D Planning Cycle [Redacted]

25X1

REFERENCE:

Your Memo dated 5 August 1982

Subject: Same as Above

1. Attached are the FBIS FY 1985 R&D requirements. The first two priorities, you will note, reaffirm FY 1984 requirements dealing with antenna research and analog speech compression. The third priority refocuses an FY 1984 R&D requirement and is designed to reiterate FBIS' continuing interest in high-speed text retrieval technology. [Redacted]

2. The IC Staff has proposed, as an ORD project, research and development in Japanese S&T machine translation. While FBIS is interested as a potential customer should ORD decide to proceed with the project, we suspect, as does ORD, that such efforts might be duplicative of commercial efforts already underway. Therefore, FBIS has not included this project as an FY 1985 R&D requirement. [Redacted]

3. I will be glad to supply any additional information you might need. [Redacted]
